

Our large above ground tank capacities range from 12,000 to 100,000 Litres. As the tanks are designed to the ISO container footprints, the transportation and handling of liquids is made safe and easy. Paint protection allows the tank to withstand harsh environments. These tanks are ideal for multiple applications in the Heavy Industry such as Construction, Logistics, Agriculture, and Mining.

### FUEL STORAGE COMPATIBILITY

-  Diesel
-  Unleaded
-  Lubricants
-  Kerosene

### FEATURES

- Mild steel internal tank and wetted parts - heavy duty mild steel external tank.
- AS1940 approved for the handling and storage of flammable and combustible liquids.
- AS1692 approved for steel tanks containing flammable and combustible liquids.
- Self-bunded to facilitate leaks: 100% Primary Tank + 10% interstitial space = 110% bunded tank.
- Forklift pockets and stress and strength tested lifting tie points at each corner.
- Paint protection for harsh environments.
- Manway tank access points via two manholes.
- Updraft vent pipe.
- Aluminium anodised dipstick / level gauge.
- Interstitial space monitoring point with anodised dip stick.
- Overfill protection alarm.
- Transportable via tilt tray or flatbed semi-trailer.
